Options for renewal or extension shall be based on the applicant's satisfactory performance of the contracted services(s) and availability of funds.

Extensions beyond the award period will be time limited in order to accomplish specific short-term goals of the DIVISION. An extension beyond the award period does not imply further extensions once the extension date has ended.

C. Dispute Resolution

Any disputes concerning a question of a fact arising under the contract, which is not disposed of by an agreement shall be decided by the DIVISION Chief or his/her duly authorized representative. The decision shall be in writing and forwarded to the applicant. In connection with any dispute proceeding under this clause, the applicant shall be afforded an opportunity to be heard and to offer evidence in support of his/her dispute. Pending final decision of a dispute, the applicant shall proceed diligently with the performance of the contract in accordance with the disputed decision.

XXIII. Cost Principles

In order to promote uniform purchasing practices among state purchasing agencies procuring health and human services under Chapter 103F, HRS, state purchasing agencies will utilize standard cost principles outlined in Form SPO-H-201 which is available on the SPO website (see paragraph II, Website Reference). Nothing in this section shall be construed to create an exemption from any cost principle arising under federal law.

The DIVISION may also be required to make small or major unanticipated modifications to individual contracts. Reasons for such modifications may include, but are not limited to, requirements imposed by the United States Department of Justice in the implementation of the Settlement Agreement and Stipulations and Orders, recommendations made by the DIVISION's technical assistance consultant, national trends, and needs of the Hawaii State Department of Health.

Section 2

Service Specifications

I. Introduction

A. Overview, purpose or need

The Adult Mental Health Division (“DIVISION”) of the Hawaii State Department of Health (“DEPARTMENT”) is responsible for coordinating public and private human services into an integrated and responsive delivery system for mental health needs. Provision of direct services to consumers in the public sector is offered through programs offered by the Community Mental Health Centers (“CENTERS”) and the Hawaii State Hospital (“HOSPITAL”). In addition, the DIVISION contracts on a purchase of service basis with private providers for mental health services to supplement the efforts of the CENTERS and the HOSPITAL.

For purposes related to this RFP, the basic functions or responsibilities of the DIVISION include:

1. Defining the services to be provided to consumers by the applicant;
2. Developing the rules, policies, regulations, and procedures to be followed under the programs administered by the department;
3. Procuring, negotiating, and contracting with selected applicants;
4. Determining initial and continuing eligibility of consumers;
5. Enrolling and disenrolling consumers;
6. Reviewing and ensuring the adequacy of the applicant’s employees and providers;
7. Authorizing and determining necessity of DIVISION funded services
8. Monitoring the quality of services provided by the applicants and subcontractors;
9. Reviewing and analyzing utilization of services and reports provided by the applicants;
10. Handling unresolved consumer grievances and appeals with the applicants;
11. Certifying Medicaid Rehabilitation Option (“MRO”) providers;
12. Authorizing and paying MRO services and claims;
13. Monitoring the financial status and billing practices of applicants;
14. Identifying and investigating fraud and abuse;
15. Analyzing the effectiveness of the program in meeting its objectives;
16. Conducting research activities;
17. Providing technical assistance to the applicants;
18. Providing consumer eligibility information to the applicants;
19. Payments to the non-MRO contracted applicants; and,
20. Imposing civil or administrative penalties, monetary penalties and/or financial sanctions for violations of specific contract provisions.

Since persons who are severely and persistently mentally ill typically manifest varying levels of need for care and often experience cyclical episodes of recurrence of the illness, a variety of service and housing options must be

provided simultaneously to the individual and tailored to meet his/her current needs. Among these required services are those which must address the needs of persons when they are homeless, when they are experiencing a bout of illness or in relapse, and when services sought reflect the assumption that services provided to persons who are severe and persistent mentally ill, are community-based, are well-coordinated, and produce outcomes which are of benefit to both the consumer and society.

B. Planning activities conducted in preparation for this RFP

A Request for Information was published on February 28, 2006 to solicit input on the availability of potential service providers, the staffing capabilities of providers, and culturally specific service capabilities and approaches.

A series of planning events, including needs assessment conducted in 2000, were held with mental health stakeholders (consumers, staff, private providers, advocates, and family members) to determine the range of public mental health services for persons with severe and persistent mental illness. During these meetings, views were expressed on how to improve services and achieve system-wide goals. Most importantly, input had been received for provision of comprehensive, accessible services on each island and in rural locations with a range of housing options, a choice of treatment, and rehabilitation with access to case managers, and other services after regular working hours. Based on these findings, the DIVISION has appropriated funding to provide services to consumers by contracting with purchase of service providers. These services shall reflect national standards of care and best practices and shall be based on a philosophy of recovery-focused and cultural competent treatment, psychosocial rehabilitation and other community supports.

U.S. Department of Justice Stipulation and Order

Since 1991, the State of Hawaii has been under a Settlement Agreement with the United States Department of Justice (“DOJ”) relative to the treatment and rehabilitation programs and services at the HOSPITAL. Since 1998, the DIVISION has been developing and implementing an array of community-based services. In May 2001, the United States District Court appointed a Special Master to oversee the activities of the HOSPITAL and resulting community services developed by the DIVISION. On January 23, 2003 the Court ordered the implementation of a Plan for Community Mental Health Services that delineates the development and implementation of community services necessary to support the discharge and transfer of patients from the HOSPITAL, and to support the diversion of individuals who would otherwise have to be admitted to the HOSPITAL. The development, implementation, integration, coordination and monitoring of all these programs and services required by both court ordered plans will require the DIVISION to generate, coordinate and constantly monitor the systematic, uniform and accurate data and information, and the compilation of

information into management reports for policy and program and/or services development.

C. Description of the goals of the service

“AMHD is deeply committed to building a system of care which is rooted and grounded in the recovery model. The cornerstone of the recovery process is the centrality of the individual, in their personal definition of meaning and purpose, and the belief that despite the ongoing presence of the illness, people continue to develop.”

Hawaii’s adult mental health service delivery system is based on the concept of recovery, that consumers can lead fulfilling lives even in the presence of a severe and persistent mental illness. Services are focused on the need of the individual, not only on symptom relief and stabilization, but on consumer empowerment and the skills needed to lead satisfying, hopeful and contributing lives.

The goals for the services described in this RFP include, but are not limited to:

1. The recovery-based forensic program in interim housing provides knowledgeable, respectful and timely supports for individuals with early warning signs of relapse and circumvents revocation of conditional release, arrest, incarceration or hospitalization.
2. The recovery-based forensic program employs consumer preferences and choices that support risk management in relation to consumer responsibilities to self, family, group, and community.
3. Crisis prevention, crisis planning, self-monitoring, and self-management of triggers and risks are critical in meeting recovery goals.
4. A recovery-based forensic program uses non-violent and non-coercive intervention, respect for the person and their preferences, and peer support that follows the individual in their tenure in interim housing.
5. When a more restrictive setting cannot be avoided (i.e., inpatient hospitalization, Licensed Crisis Residential Service), consumers are permitted short stays of up to 72 hours with return to interim housing.
6. Community-based transition services are available as a part of a recovery-based program in interim housing to provide opportunities based upon treatment planning for outside employment, education and skill-building.
7. A recovery-based forensic program in interim housing recognizes the need for a stable home environment upon full return to the community with consumer preferences for type of housing situation available with needed supports and services that are documented in the treatment plan.

8. Risk management is integrated with fitness restoration and consumer goals for recovery

D. Description of the target population to be served

Consumers being diverted from the HOSPITAL, prison or jail; released from prison or jail; living in the community but at risk for losing their conditional release; and those who, without twenty-four (24) hour care, would further decompensate and increase their likelihood of hospitalization or revocation of conditional release.

E. Geographic coverage of service

Island of Kauai.

F. Probable funding amounts, source, and period of availability

The source of funding is state funds or a combination of state and federal funds. Both profit and non-profit organizations are eligible for state funds. Please note that based on the availability of state funds, the amount allocated to providers who are awarded contracts may change.

The DIVISION considers itself the payer of last resort, and expects providers to obtain third party reimbursement as applicable. The DIVISION gives priority to the uninsured.

An advance for start-up costs up to \$25,000 per site will be allowed for the purpose of the initial start-up of an Interim Housing program, subject to approval by the DIVISION.

1. Start up costs shall be limited to the initial rental deposit, first month's rent, utilities, licensing fees, and furnishings.
2. The advance shall offset any claims when the service is certified by the DIVISION and operational.
3. The applicant shall submit a projected plan in the facilities section of the proposal outlining a plan to secure the Interim Housing setting.
4. The criteria for determining the amount allocated to setting up an Interim Housing program shall be based on an acceptable preliminary housing inspection by the DIVISION followed by the applicant submitting a standardized signed lease agreement with a local landlord and itemized cost of furniture and licensing fees.

5. Applicants renting or leasing property from the State of Hawaii and its counties are not eligible for rental and deposit start-up costs but are eligible for an advance for furniture and licensing fees.

An additional advance for start-up costs up to \$2,000.00 will be allowed for the purpose of setting up electronic billing, subject to approval by the DIVISION. Start-up costs should reference the purchase of software that performs the function of creating a Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) compliant 837, including optional fields.

The criteria for determining the amount allocated for setting up electronic billing will be based on the applicant demonstrating that they are able to submit 837 compliant claims files including DIVISION optional fields. Where software is being purchased, applicants must submit documentation from the vendor selected which includes the full purchase price of the software and supporting evidence that the software meets required specifications. Direct contact with the vendor to confirm the functionality of the product may be necessary prior to allocation of funds. Should an applicant wish to use the funding to support the costs of modifying an existing billing system, the applicant must obtain prior approval of their project plan. This plan must include milestones which demonstrate that the modifications will be completed in time to meet the electronic billing deadline referenced in this RFP. The plan must also identify personnel resources, describe the modifications planned and estimate the number of hours required to complete the project. Payment would be made upon successful acceptance of an 837 claims file by DIVISION.

Requests for start-up costs are optional and not required as part of the proposal application package.

If an applicant materially fails to comply with terms and conditions of the contract, the DIVISION may, as appropriate under the circumstances:

1. Temporarily withhold payments pending correction of a deficiency or a non-submission of a report by a provider.
2. Disallow all or part of the cost.
3. Restrict, suspend or terminate the contract.

In the event that the additional funds become available for similar services, the DEPARTMENT reserves the right to increase funding amounts.

Competition is encouraged among as many applicants as possible.

III. Scope of Work**A. Service Activities**

(Minimum and/or mandatory tasks and responsibilities)

The request for proposal is to establish statewide interim housing services. Consumers may be served for up to six (6) months with services provided by multidisciplinary staff available on-site and on duty twenty-four (24) hours a day, seven (7) days a week. Interim Housing services is a forensic, recovery oriented program targeted for consumers being diverted from the HOSPITAL, prison or jail; released from prison or jail; living in the community but at risk for losing their conditional release; and for those, who without twenty-four (24) hour care, would further decompensate and increase their likelihood of hospitalization or revocation of conditional release. This service shall be individualized, integrated into the community, and provided in the most normal and least restrictive setting possible, consistent with each consumer's needs and court requirements. Interim housing services shall utilize contingency planning with consumers, understanding of triggers and risks, daily maintenance planning, crisis prevention and personal risk management. Consumer recovery goals shall be developed and reinforced with fitness restoration, motivational strategies, peer support and cognitive behavioral techniques and therapy.

The purpose of Interim Housing is to provide a structured residential setting for up to six (6) months per consumer when fitness restoration is required; when

individuals released from prison or jail are at risk for poor community adjustment; or to prevent revocation of conditional release.

The DIVISION's ACCESS Line, case managers, probation officers, parole officers, forensic coordinators and jail diversion will make referrals to interim housing. Authorization for entrance to and exit from Interim Housing shall be through the DIVISION's UM unit.

1. Admission Criteria:

Consumers appropriate for Interim Housing services meet the following criteria:

- a. Individuals diverted from the HOSPITAL or Kahi Mohala that require a structured licensed residential setting for fitness restoration.
- b. Individuals released from jail or prison that are at risk for homelessness and substance abuse and have a poor history of community adjustment.
- c. Individuals who are on community release but are exhibiting early warning signs of relapse and risk revocation of conditional release or arrest or hospitalization.
- d. Individuals with the characteristics described in III.A.1.a.-c., above who have no understanding of personal risk factors, and who present with a history that indicates that structured treatment can only occur in a licensed facility.
- e. Consumer outcomes are specifically identified by the treatment team with involvement of the consumer and fit the level of care and specialization of Interim Housing.

2. Discharge Criteria:

Consumers are appropriate for discharge from Interim Housing services when they meet the following criteria:

- a. There are available treatment resources other than Interim Housing that meet the consumer's needs at the level of intensity required.
- b. Individual outcome measures identified upon admission have been substantially achieved.
- c. Court mandates allow for housing and treatment needs to be met in

settings other than in a specialized treatment facility.

3. **Integrated Treatment Description:**

Interim Housing provides integrated treatment based upon helping people build new and more effective behavioral strategies that contribute to restoring fitness and achieving their personal recovery goals. Wellness Recovery Action Planning shall be used to help consumers develop improved behavioral responses that manage risk, promote recovery, and prevent relapse (defined as loss of skill and functioning), and facilitate personal responsibility for actions. The program shall teach social skills, self-monitoring, and emotional regulation skills to help consumers develop a more stable lifestyle and eliminate negative behaviors. The structured setting focuses on lifestyle changes that address contextual factors or triggers that contribute to relapse or that serve to maintain behaviors that are counter-productive to personal recovery goals. For example, substance use and any violation of conditions of conditional release may contribute to hospitalization or arrest and job loss.

Integrated treatment shall include:
